## The selection series movie trailer

CC0/JAHuddleston/Pixabay You can use trailers for just about any task at job sites or for hauling. While selecting an equipment trailer or box trailer may seem like a straightforward process, you need to carefully factor in a trailer's features before you purchase it. When selecting a trailer for hauling equipment or debris, you need to consider the following criteria before making a choice.Check Out the DetailsWhen selecting a trailer that supports your needs for hauling, you need to review the size of the trailer as well as the type of weight you plan to haul. For instance, if you are a contractor who drives a one-ton pickup, who wishes to haul a mini excavator, you should carefully review tilt-bed trailers that have stationary decks.This type of trailer has a gross vehicle rating or GVWR of about 16,000 pounds. It can haul about 10,000 pounds of a load if it features electric brakes. You can use the deck to hold attachments and the main tilt deck for hauling the equipment.A ramp-style trailer with pallet fork holders may work if you wish to haul equipment with pallet fork attachments. Therefore, to determine the trailer type, or a trailer that will take care of all your hauling needs, think about what you plan to haul in terms of equipment, refuse, or supplies.Consider the CapacityWhen choosing a trailer that covers a variety of hauling needs, you need to consider the capacity. Factors that go into this decision include the type of ramp and flooring, and other related features, such as the type of tongue jack, tailgates, side rails, winches, and even spare tires. Even the coupler you choose will figure into the load capacity. Never underestimate the total weight of what you plan to haul.Weight distribution can vary, depending on what you add in attachments. Make sure the trailer provides enough room so the equipment can provide the correct tongue loads. Tongue weight that is inadequate can lead to unsafe hauling, or swaying.Check the VersatilityA trailer that fits with your hauling needs should accommodate the length and width, or all the dimensions of your hauls. After all, you want a trailer that offers versatility if you will be using it frequently.Check the Trailer's ConstructionWhen making a selection for a full-use trailer, compare the structural quality to the trailer's design. Look for a trailer that features a one-piece frame so the number of joint or butt welds is limited. The width between the fenders should also be checked to permit various kinds of equipment to be hauled.Choose a design that allows movement of rear load ramps to support various wheel treads as well. Also, place an emphasis on spring-assisted lifts on ramps to make hauling a breeze. The placement of the axle is critical to ensure extra safe towing as well. Tandem trailer axles are better if you want to carry heavy loads.When you carefully calculate your needs in terms of trailer details, load capacity, and a trailer's quality, you will find a trailer that will fit all your needs. MORE FROM QUESTIONSANSWERED.NET CC0/jill111/Pixabay You are not the only one who loves a travel trailer or RV. Hollywood does too, and the movies prove it. There are scores of movies that have used travel trailers to portray their heroes' adventurous lives.This selection of trailers from movies showcases some trailers that have been used in movies ranging from light comedy to action packed blockbusters. With a trailer, you never know where it's going to get unless you know who owns it. Chances are, if you are looking for your next travel adventure, the stories of these trailers will inspire you to plan your own unique journey.RVThis movie from 2006 features a Forest River Georgetown 359TS travel trailer that becomes more than just a travel vehicle. Bob Munro, the central character of the movie, sets out on a road trip to Colorado where they encounter a rowdy group of campers. In the movie, the RV assumes an importance rivaling that of human characters, hence the title of the movie. The fate of the RV is largely a mirror of that of Bob Munro himself. For example, when the RV gets stuck on top of a mountain, it mirrors what happens next to Munro, which is his firing from his job shortly afterward. However, like Munro, the dogged RV ends up on top at the end of the movie.2012The everyday hero of this end of the world movie happens to be an avid trailer driver. The starring role of chauffeur Jackson Curtis in this 2009 movie is played by actor John Cusack. Curtis works for a wealthy billionaire who happens to be Russian. In order to escape from the humdrum of daily life, Curtis takes his children on a trailer and they go camping. In Yellowstone Park, they discover that the Army has just evacuated the area and that something terrible is about to happen. The hero's use of a trailer for his camping adventures paints him as a guy with tastes relatable to those of ordinary folk. Like many a trailer, however, he has some very special responsibilities waiting for him since his family depends on him to get them home safely.We're the MillersThis 2013 comedy movie features a trailer that just happens to be used by a team of neighbors pretending to be a regular family known as the Millers. The trailer is carrying a very special load, however, because the leader of the group is a small-time drug dealer who owes a big sum of money to a drug lord. In order to save his life, he must deliver a heavy load consisting of two tons of marijuana to the drug lord. As it happens, carrying a heavier than usual load for a road trip, the trailer breaks down and the Millers get help from the Fitzgeralds, another family on the road. Don Fitzgerald, however, turns out to be a DEA agent, who then helps untangle the mystery of the Millers. The Millers finally cooperate with the DEA to bring the drug lord under arrest and take themselves out of harms way.Independence DayIn this movie, a trailer just happens to be the main home of the main character, played by Will Smith. Given the harsh backdrop of this movie, with aliens on the verge of taking over the planet, the trailer showcases the rugged life of the main characters. If you loved watching the movie, you can easily recreate the adventurous life with a trailer road trip of your own. Running into aliens, however, is not a guaranteed part of owning a trailer.The Long, Long TrailerThis romantic comedy from 1954 features a trailer that becomes the getaway vehicle of a couple of newlyweds. The trailer in the movie was specially made in Alma, Michigan. In the story, the main character Nicholas Collini and his wife buy a trailer so they can save money on the cost of buying a home. The couple must tow the trailer to Nicholas' new workplace in Colorado. They then find themselves getting into a series of adventures as they run into problems along the way.Buying a Trailer of Your OwnIf the movies have inspired you to live the trailer life yourself, you can likely find one for sale around your city or town. The average trailer costs around \$11,000 to \$35,000 for a single-wide trailer. Double-wide trailers will cost more. MORE FROM LIFE123.COM The Selection book cover & Haifaa Al-Mansour – Picture: Getty Images One of the big movies to look out for from Netflix in the future is The Selection, the adaptation of the romantic novel book from Kiera Cass. Below, we'll be keeping track of everything we know about The Selection thus far including production status, who's involved, and more. For fans of the book, it's been over a tough decade watching the failed attempts of the book being adapted. The CW has had two attempts with both pilots in 2012 and 2013 failing to get picked up for full TV series orders. The rights then moved to Warner Brothers in 2015 before now being with Netflix. The news that The Selection would be heading to Netflix was originally broken by Variety in April 2020. Kiera Cass also posted some personal thoughts on the adaptation via her blog in April 2020 alongside the announcement. She didn't have much to reveal other than "things look good!". Kiera also pre-emptively answered a lot of questions fans already had by saying: "Do I know anything about casting? No! Do I have any idea when the release date is? Also no!" but added, "Am I stupid excited? YES!". The movie will follow the events of the book which pits 35 girls against each other for a chance to live amongst the wealthy. Who's involved with The Selection on Netflix? The key talent involved in the project includes the director, Haifaa Al-Mansour, a Saudi-Arabian director (also the first from the region) who is most known for Wadja but also had a hand in two Netflix projects including Nappily Ever After and directing on The Society (sadly canceled). Katie Lovejoy serves as the writer behind the movie who is probably best known for her writing on another Netflix romantic movie, To All The Boys 2. Among the producers for the movie include Denise Di Novi, Alison Greenspan, and Pouya Shahbazian. A sound technician has also been attached to the project too which is David Andrew MacMillan. Who will be in the cast for The Selection on Netflix? That's yet to be determined, unfortunately. We should at this point mention a huge ongoing campaign from fans to try and learn more about the movie, specifically the cast. A social account with a large following (close to 80k followers) has mounted a campaign to find out who will be in the cast and it eventually warranted a response from Netflix HQ. Hi! Love the enthusiasm and as soon as I'm able to share more details, you'll be the first to know xoxo — Netflix (@netflix) October 10, 2020 We spoke to Lucas from The Selection Brazil team who explained why the movie is so important to their campaign saying the book is "funny" and "romantic". He also goes onto explain that his wish for the movie itself is that it focuses a little more on the rebellion that occurs saying "But it also has a deep side. Issues on the government, rebel attacks, things like that." When is production due to start for The Selection? An issue of ProductionWeekly revealed that the movie is currently eying to begin production in early 2021 however that never came to pass and in fact, as of December 2021, the movie is still in relatively early development. In November 2020, a small update from Keira Cass said that she had no news on the movie front adding "Things have slowed for the time being, but as soon as there are updates, I will pass them along!". Now, a year later after that update, Kiera posted on Twitter that things looked to be moving forward saying that the "ball is in Netflix's court." Ok, friends. #TheSelectionMovie update. Just got off a very positive phone call. The ball is in Netflix's court. You know what to do. — Kiera Cass (@kieracass) December 13, 2021 Pouya Shahbazian then clarified what exactly this Tweet means saying that "we have a script" and "now we just need a green light to make the movie - but that is out of our hands. all we can do is push...as can you!" As someone tracking Netflix content for nearly 9 years, the above is just incredible particularly when they ask you to push the movie. The movie looks like it was announced way too soon in advance and given we don't even know if it'll move forward the idea that it'll release in 2022 seems doubtful. Since the above developments, fan accounts for the book have begun coming up with ways to get the word out and encourage Netflix to greenlight the movie. LETS GOO! Today we'll be starting our campaign to ask Netflix to greenlight The Selection movie production. Everything will happen on their instagram profile (@netflix). Make sure to follow all the steps in the picture. Can we count on you??? Let us know in the comments! pic.twitter.com/Y8ImjGhRbp — The Selection Netflix (@TheSelectionNET) December 15, 2021 Why there could be multiple sequels to The Selection Of course, once the first movie arrives and if it's successful, it could be a long-running movie franchise for Netflix. The collection of books are known as "Happily Ever After". The books that could also see adaptations further down the line include: The Elite The One The Heir The Crown Unfortunately, that's all we know so far about The Selection so far. More details will likely come out in due course and we'll keep this post updated as soon as we find them. Are you looking forward to watching The Selection on Netflix? Let us know in the comments down below.
